About Me

Data and Business Intelligence analyst with nearly 5 years in commercial and financial analytics, currently owning sales performance reporting for Amplifon's U.S. retail operations (53 Owners, ~\$35M monthly revenue). I build the models and pipelines behind pricing, forecasting and sales KPIs — Power BI, SQL — Finance Background from Accenture; and run IntroData, a freelance BI analytics consultancy.

 - SQL (PostgreSQL) · ETL
 - Forecasting & driver analysis (LMDI)
 - Deneb / Vega-Lite · Advanced Excel
- Familiar with:
- Fabric
 - Python
 - Power Automate
 - n8n

Experience

- Sales Performance Specialist**
Amplifon SpA
APR 2025 - PRESENT
 - Own sales and appointment analytics for Amplifon's U.S. retail network — 53 owners, ~ \$35M in monthly revenue — designing the **Power BI semantic models and DAX** measure layer used weekly by 15+ stakeholders across Sales, Finance, Pricing and Marketing.
 - Analyze **key commercial KPIs** (ASP, sales mix, A2O, close rate, units, promotional impact) to identify trends, performance gaps, and revenue opportunities.
 - Develop **forecasting and scenario-analysis** tools for Sales, Finance and Pricing — revenue opportunity, promotion impact, market saturation, store performance and lag time.
 - Run variance and trend analysis** across large datasets, reconciling reported figures against source extracts with SQL and Power Query and validating measure logic to keep executive reporting reliable.
- Independent Data Consultant**
IntroData
DEC 2025 - PRESENT
 - Help small businesses move from spreadsheet-based tracking to **structured reporting**: assess how their data is organized, define the metrics that matter, and deliver Power BI reports they can actually run their business on.
 - Design the full reporting layer** — Power Query ETL from Excel, databases or business systems, star-schema data models, and DAX measures — adapting to the sources the client already has.
- Project Control Services Data Analyst**
Accenture
JAN 2024 - MAR 2025
 - Delivered end-to-end projects from stakeholder requirements gathering to development and presentation.
 - Built interactive automated dashboards** with advanced DAX measures.
 - Designed and maintained SQL data models** feeding 15 dashboards; optimized queries reducing refresh time from 1 hour to 35 minutes.
 - Presented reports to stakeholders**, providing insights and detailed explanations.
 - Automated daily Power BI** refresh from Jira as data source.
- Client Financial Management Analyst**
Accenture
FEB 2022 - DEC 2023
 - Managed **contract health and forecasting** for a portfolio of 6 contracts / \$7M in monthly billings.
 - Ran forecasting to **support financial planning** and decision-making.
 - Handled **invoicing and booking of new contracts**, ensuring compliance and accuracy.
 - Built and delivered **Power BI financial reports** to support business performance.
- Earlier Experience**
 - Administrative & financial manager - Guerrero Accountants (2021-2022)
 - Owner/Founder - Pet Shop Firulais (2020-2021)
 - Real estate operations, Reyna Novillo Inmobiliaria (2014-2020)
